

Managing a Healthcare Organisation

Assignment brief and Guidance Notes

Module Title	Managing in a Healthcare Organisation
Module Code	N/A
School	School of Healthcare and Nursing
Level	7
Credit Value	30 credits
Module Leader	Peace Ukachukwu

Details of the Formative and Summative Assessment:

Formative assessments:

1000-word draft of any **Health resource management issue/topic** of your choice. Preparing/linking into the summative task.

(To be submitted as per Timetable details)

Assignment Guidance Notes-Formative Assessment Brief

You are advised to write a 1000-word draft preparing/linking into the summative assessment tasks

Suggested Structure for your Formative Assignment

Introduction:

Main Body:

Conclusion:

Reference List:

Please ensure you incorporate formative feedback into improving the 1000-words that you will use in completing your summative work.

Summative Assessment: Students will:

1. Submit a 1000-word written piece on a Health resource management issue/topic to an approved AI programme (currently Microsoft 365 copilot chat)
2. Using a structured AI prompt (to be provided/ created during the module), you will generate an AI response.

3. A 4000-word Critical analysis of the AI-generated response/output demonstrating engagement with relevant literature, critical thinking, and application of healthcare management principles
[100% of Module Grade]
- ***You must achieve 50% to pass the module.***
 - ***Submission deadline- Time: 12 Noon on date confirmed in your Individual learning plan. (To be submitted as per Timetable details via Turnitin)***

Assignment Guidance Notes-Summative Assessment Brief

Submit a 1,000-word written piece on a **Health Resource Management issue/topic** to an approved AI programme (currently Microsoft 365 Copilot chat). You must use your student email only to sign in/ login to Microsoft 365 Copilot chat.

Using the structured AI prompt provided/ created during the module to generate a response from your submitted 1000-words.

Steps the student will apply to instruct the Generative AI:

The first thing the student will do is to instruct the Generative AI (Microsoft 365 Copilot chat) to ensure it keeps its response within the expected limit.

Step 1: “I am a student currently writing an assignment. I will need you to play the role of a learning and brainstorming partner. You will generate ideas, clarify concepts and brainstorm ideas on a specific health resource management issue/topic that I will provide for you”.

- I will paste a 1000-word essay on ***“the topic/issue that you have chosen.”***
- I will follow the 1000-word essay with a prompt on what I expect you to analyse and generate response on.
- Ensure that you keep the response precise and concise based on the specific health resource management issue/topic provided.
- Ensure the generated response is accurate and unambiguous and avoid unnecessary details.
- All responses and outputs should be in English language, UK spellings.

Copilot will respond to let the student know that it has understood the instructions provided it above. It will also restate those instructions for clarity. It will also ask the student to go ahead and paste the 1000-word essay.

Step 2: The student should go ahead to copy and paste the 1000-word essay into Copilot chat.

Copilot will respond to acknowledge that and ask the student to paste the prompt.

Step 3: Then student should copy and paste the provided prompt.

***The Provided Prompt*:**

Critical Analysis of Health Resource Management Strategies

" Using the provided 1000-word essay, critically evaluate the key strategies in health resource management in relation to my chosen topic/issue. Discuss the challenges in optimising healthcare resources and propose innovative solutions. Support your arguments with relevant case studies and data-driven insights."

****If during the module the wording of the provided prompt is changed/ amended, or if an alternative prompt becomes available as an option, this will be articulated to you ahead of the summative assessment***

Based on the AI generated response, write a 4000-word Summative Assessment in the following areas:

- Critical analyse the AI-generated response demonstrating engagement with relevant literature, critical thinking, and application of healthcare management principles.
(Please note students are not required to critique the AI-generative tool i.e. Microsoft Copilot).

Suggested Structure for Summative Assignment

Introduction:

- Introduce the concept of resource management and its importance for a healthcare organisation.
- State the purpose of the essay and the significance of your chosen resource management issue in relation to managing in a healthcare organisation.
- State how you intend to accomplish the assignment task using the Microsoft Copilot chat generated response.

Main Body:

- Provide a critical analysis or review of the Microsoft Copilot-generated response, applying relevant principles and frameworks associated with your chosen management issue.
- Demonstrate adequate application of relevant literature, critical analysis, and the synthesis of scholarly ideologies, noting some divergence as well as convergence concepts that could impact the effective management of a healthcare organisation
- Demonstrate a comprehensive application of healthcare management principles to practice

Conclusion

- Summarise the main findings and key insights from the critical evaluation

Referencing

- Accuracy of in-text citations and reference list (Harvard referencing style).

Overall Presentation and Appendix

- The overall quality of the presentation, including clarity, spelling, and grammar, is satisfactory.
- Attach evidence of engagement with the approved AI Programme (currently Microsoft 365 CoPilot Chat), the prompt you used, and the AI-generated response. You must clearly demonstrate this by attaching **a snip** of the entire chat with the prompts

What to do to achieve a pass:

- To write a 4000-word critical analysis evaluating the AI-generated response (Microsoft 365 CoPilot Chat), demonstrating critical thinking and engagement with literature
- To ensure that you followed the suggested structure for summative assignment
- To adopt and expand the generated response into the 4000-words with adequate citations and critical analysis
- To copy and paste your 1000-word essay into Microsoft 365 Copilot Chat using your university login details
- To copy and paste the approved structured prompt to generate the AI response
- To ensure accuracy of in-text citations and reference list (Harvard referencing style)
- To provide a snapshot of the complete chat history between yourself and Copilot as appendix

What you are not to do to avoid a failed assignment:

- Do not upload the 1000 word-essay (please copy and paste)
- Do not critique the strengths and limitations of the generative AI
- Do not demonstrate any gap between your completed essay and the generated response

- Do not write any reflective report
- Do not provide Copilot with a different prompt from the approved prompt on the assignment brief
- Do not ask Copilot to reference the response it generated
- Do not mutilate the attached chat history with Copilot

Note: You must only use the approved suggested prompt(s) and only on Microsoft 365 Copilot Chat; you must be signed in with your student Microsoft 365 account credentials.

Turnitin upload format

When you are submitting your assignment on Turnitin, you are to use the format below to name the assignment:

BPP SRN (BP0123456), MHCO and Assignment

How to check similarity

You can complete a similarity check by going into your cohort summative submission page on Turnitin prior to the deadline.

You can complete a similarity check as many times as you wish, and you will get an immediate similarity percentage result for the first 3 times. After that it will take 24 hours so, please be mindful of the cut off time for your final submission as once the date and time has elapsed you will not be able to submit your work.

Assessment regulations

- You may receive verbal and written feedback on Formative work, which is intended to aid your learning experience.
- For all assessed academic work, feedback will be available four weeks after the submission date. This feedback and any grade awarded are provisional until the Board of Examiners have ratified your awarded grade.
- Remember to use your feedback in conjunction with the assignment; the aim is to improve your performance, use feedback constructively to plan future work and performance. Where you are unclear with regards to the feedback, you should seek further clarification from the module team and or your personal tutor.
- There is a **fee (£75)** for every resubmission following failure at a previous attempt
- In some instances, the Programme Leader or nominee may grant an extension of a deadline date for coursework. You must have undertaken the following for this procedure to be considered:
 - a. The application **MUST** be received by 12:00 noon on the day before the deadline.
 - b. The claim for the extension **MUST** be on the prescribed form and.
 - c. **MUST** be accompanied by authoritative and objective evidence of the mitigating circumstances relied on.

- You must NOT mention or use specifically the name of any individual or organisation without permission in your assignment.
- More information regarding the extension of course work can be found in the university Policies and Procedures (UPPs) & General Academic Regulations (GARs)

Required

- Ensure you insert at the foot of each page, SRN and Slide number

Ensure you use the BPP cover page with the following information.

Student Registration Number: BP

Date submitted:

Module name: Managing in a Healthcare Organisation

Assignment name: Critical Analysis

Tutor's name:

Academic Misconduct

It is important that you complete and submit work that is your own and not others.

Plagiarism:

Means taking credit for someone else's words or ideas, either on purpose or accidentally through failure to cite sources.

It is important for you to acknowledge the work of others carefully and completely in your assignments / course work.

Collusion:

Collusion is where students work together to complete an assessment that should be taken independently.

Talking to friends and peers about a topic is a valuable way to improve your understanding and support your learning. But there is a line between working collaboratively, or in cooperation, and collusion.

Formal group work is an important skill and likely to be an essential part of your future career. You can develop this skill in tasks and assessments that are labelled as group work.

It is important that outside of this group work you must work on your course work / assessments independently.

Gen AI

Asking AI to write your assignment is cheating and is considered Academic Misconduct. Unless otherwise stated as part of the assessment.
